Privacy Compliance Report

Evidence from a live scan of the main domain: before consent, after Accept and after Reject.

Compliance Score

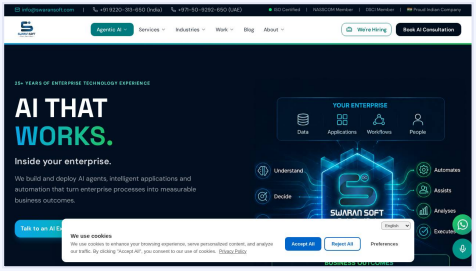

Progress needed

The 6 checks we could test scored 76.2%. 6 more could not be tested from outside, so read the score with the coverage.

Coverage 53.8%: the share of the checks that apply that a scan could test.

5 CONSENT BEHAVIOUR

WHAT WAS OBSERVED	BEFORE CONSENT	AFTER ACCEPT	AFTER REJECT
Cookies set	**3**	Not tested	Not tested
Analytics and marketing requests	**9**	Not tested	Not tested
All third-party requests	**46**	Not tested	Not tested
Banner action	Banner found	Not tested	Not tested

A third-party request is one distinct address the pages contacted, counted once however many times it was requested. It is counted in every consent state it appeared in.

KEY TAKEAWAY

The Accept and Reject choice could not be tested, so only what can be compared is stated here. Before any choice was made: 9 analytics or marketing requests and 3 cookies. These are the first things to review. 37 further requests before consent were not classified as analytics or marketing.

Duties that depend on an organisation's own records, such as how requests from people are handled and internal security practice, cannot be observed from a website and are not listed here. They are left out of the score and count as not tested in the coverage, so the counts above include them.

9 PRIORITISED FIXES

In the order to do them. Where a fix changes the score, its impact is the score's own arithmetic: that one check fixed on its own and nothing else changed. Where it changes the policy, the impact is the policy's completeness. Each fix says why it matters and where the law says so.

Fixes that change the score

1. DPDP-C1 No analytics or marketing processing before consent — Prepare before 2027-05-13 · Not Met

Action: Load analytics and marketing tags only after the visitor accepts: configure the consent tool to block them by default, or start them from its accept callback. Identify each unclassified item and treat it as non-essential unless it is needed for the service the visitor asked for.
How to verify: Re-scan. The Before Consent state should show no analytics or marketing requests or cookies, and they should appear only after Accept.
DPDP Act, 2023, Section 6(1); DPDP Rules, 2025, Rule 3

Fixes to the privacy policy's wording

1. Notice available in English or a scheduled Indian language — Required · Not found

Action: Offer the notice in English or any Eighth Schedule language the person chooses, and say so.
Impact on the policy: Stating this would raise the policy's completeness from 84.2% to 89.5%.
Why it matters: The Act or Rules require this to be given or published (DPDP Act, 2023, Section 5(3)).

2. Personal data breach response — Good practice · Not found

Action: Say that affected people and the Data Protection Board will be informed of a personal data breach, and how.
Impact on the policy: Stating this would raise the policy's completeness from 84.2% to 89.5%.
Why it matters: Good practice: a duty stands behind it (DPDP Act, 2023, Section 8(6); DPDP Rules, 2025, Rule 7), but the Act and Rules do not say the policy itself must state it.

3. Grounds for processing: consent and the legitimate uses relied on — Good practice · Not found

Action: State, for each purpose, whether you rely on consent or on a legitimate use under the Act.
Impact on the policy: Stating this would raise the policy's completeness from 84.2% to 89.5%.
Why it matters: Good practice: a duty stands behind it (DPDP Act, 2023, Section 6(1); DPDP Act, 2023, Section 7), but the Act and Rules do not say the policy itself must state it.

What each rests on: the score fixes rest on what the scan measured. The policy fixes rest on the policy's own text, where a point not found is not a finding that a duty is unmet.

10 GRIEVANCE OFFICER

Grievance contact found · Confirmed

The policy names who handles grievances and how to reach them, and says how quickly they are answered.

WHAT THE SCAN LOOKED AT	WHAT IT FOUND
Grievance contact	Stated in the policy (see the quotation)
Response period	Stated in the policy (see the quotation)
Complaint to the Data Protection Board	Explained in the policy

> “Saurabh Kumar Swaran Soft Support Solutions Pvt. Ltd. Email: saurabhk@swaransoft.com”

DPDP Act, 2023, Section 13(1) · DPDP Act, 2023, Section 8(10) · DPDP Rules, 2025, Rule 14(3) · DPDP Act, 2023, Section 13(2) · DPDP Act, 2023, Section 5(1)(iii) · DPDP Rules, 2025, Rule 3(c)(iii) · DPDP Act, 2023, Section 13(3)
The scan reads the published policy; it does not test whether the contact answers or whether grievances are resolved in the stated time.

11 DATA PROTECTION OFFICER

Contact for a Data Protection Officer or answering person found · Confirmed

The policy gives a business contact for questions about how personal data is handled.

This report is for informational purposes only and does not constitute legal advice. It reflects an automated scan of the pages listed, measured against Consiva's own checks, and is not a certification or guarantee of compliance with any law. > https://www.swaransoft.com/cookie-policy

DPDP Act, 2023, Section 8(9) · DPDP Act, 2023, Section 10(2)(a)
A Data Protection Officer is required only of a Significant Data Fiduciary notified by the Central Government (Section 10(2)(a)). Every data fiduciary must publish the business contact of a Data Protection Officer or of a person who can answer questions about the processing (Section 8(9)).
Whether the organisation has been notified as a Significant Data Fiduciary cannot be seen from a website, so the scan does not assess it (it is a declared applicability, left out of the score unless declared).

12 INDIAN-LANGUAGE SUPPORT

Not recorded for this scan · Not verified

This scan was made before the pages' languages were recorded, so nothing can be said about them.

WHAT THE SCAN LOOKED AT	WHAT IT FOUND
The policy says the notice is available in other languages	Not found in the policy text

DPDP Act, 2023, Section 5(3)
A page can offer other languages behind a choice the scan does not click, and a notice in another language can exist even where the pages show none. So an absence here is not evidence that the option is missing. This section does not change the score.

13 CHILDREN'S DATA AND AGE GATE

Not applicable on the evidence · Not verified

Nothing in the site's sector, its forms or its consent tool suggests it is aimed at, or collects data from, children, so this duty is not assessed. The scan cannot see who actually uses a service.

WHAT THE SCAN LOOKED AT	WHAT IT FOUND
Sector reading	General website (low confidence)
Form fields that suggest children's data	None seen
Age gate before the consent banner	None recognised. The scan only recognises age gates shown by consent tools it knows, so this is not proof there is none
The policy's statement on children's data	Not assessed: no sign the site is aimed at children

DPDP Act, 2023, Section 9(1) · DPDP Act, 2023, Section 9(3) · DPDP Rules, 2025, Rule 10; exemptions: DPDP Act, 2023, Section 9(4) · DPDP Rules, 2025, Rule 12, Fourth Schedule, Part A
The exemptions apply only to the entities and purposes the Fourth Schedule names (for example clinical establishments and educational institutions, for the processing it restricts them to). They are a fact about the organisation, which the scan cannot see.

14 OBSERVABLE SECURITY SIGNALS

DPDP Act, 2023, Section 8(5) · DPDP Rules, 2025, Rule 6
The Act and Rules require reasonable security safeguards. Most of them (access control, encryption at rest, logging, backups, staff training) are inside the organisation and cannot be seen from outside.
A signal not observed is not a finding that the safeguard is missing, and one observed is not a finding that the safeguards are adequate. This section does not change the score.

15 FIVE-PAGE DPDP READINESS REVIEW

Most of Sections 3 to 17 of the Act and Rules 3 and 5 to 16 apply from 13 May 2027 (Section 6(9) and Rule 4, on Consent Managers, from 13 November 2026), so these are readiness findings, not violations.

A. The five pages

#	PAGE	URL	WHY SELECTED

2	**Homepage**	https://swaransoft.com/	Where the cookie banner, the footer and the trackers that fire on arrival are seen.
3	**Privacy Notice / Privacy Policy**	https://www.swaransoft.com/privacy	The notice the Act and Rules require: what is collected, why, and how to exercise rights.
4	**Account Settings / Profile (no account page found; main contact form used)**	NOT FOUND	NOT FOUND: no account page and no contact form page were found.
5	**Grievance / Data Principal Rights (no separate page found; Contact Us used)**	NOT FOUND	NOT FOUND: no grievance, rights or contact page was found.

B. Findings, one row per check

12 Compliant · 1 Gap · 3 Not Found · 18 Cannot Verify · 5 Requires document review

PAGE	SECTION	CHECK	STATUS	EVIDENCE	FIX
Sign-up	—	Page exists: sign-up, checkout or enquiry page	**Not Found (Not seen)**	NOT FOUND: no sign-up, checkout or enquiry page was found among the pages scanned or the links the scan discovered.	Add a sign-up or enquiry page that collects personal data with a notice at the point of collection, or confirm that none is needed.
Sign-up	DPDP Act, 2023, Section 5 · DPDP Rules, 2025, Rule 3	A notice is shown at the point of collection listing each item of personal data and the specific purpose	**Cannot Verify (Not captured)**	No page to check.The scan keeps a form's fields, not the notice text around them, so it cannot say whether a notice appears beside the form. The privacy policy, separately: the itemised data list quoted.	To verify: open the page, and check that a notice beside or above the form lists each item collected and its purpose, and links to the full notice.
Sign-up	DPDP Act, 2023, Section 6(1)	Consent is free, specific, informed, unconditional and unambiguous, by a clear affirmative action, with no pre-ticked box and no bundling	**Cannot Verify (Not captured)**	No page to check.Checkboxes recorded: field-1 (checkbox), field-1 (checkbox), field-1 (checkbox), field-1 (checkbox). The scan does not record whether a box is ticked in advance, or the wording beside it.	To verify: open the page; confirm no box is ticked in advance, consent is a clear action, and each purpose has its own choice.
Sign-up	DPDP Act, 2023, Section 6(1)	Only the fields needed for the purpose are collected (data minimisation)	**Cannot Verify (Observed)**	No page to check.2 distinct fields recorded. No field beyond basic contact details was recorded. Whether each field is needed depends on the purpose, which the scan cannot see.	To verify: for each field, write down the purpose that needs it; remove or make optional any field with no purpose.
Sign-up	DPDP Act, 2023, Section 4 · DPDP Act, 2023, Section 7	Where no consent is taken, a valid legitimate use applies	**Requires document review (Not captured)**	Whether a legitimate use (Section 7) applies depends on why the data is collected and on records the website does not show.	Review the lawful ground for each purpose; where it is a legitimate use, record which one in the processing records.

That is not a Consent Manager registered under the Act. Nothing on the page shows a Consent Manager integration. The provisions on Consent Managers apply from 13 November 2026.	If a Consent Manager is offered, confirm the page lets a person give, manage and withdraw consent through it.
Sign-up	DPDP Act, 2023, Section 9(1) · DPDP Rules, 2025, Rule 10	There is an age gate, and verifiable parental consent for anyone under 18	**Cannot Verify (Not seen)**	No field asking for age or a guardian was recorded. No age gate was recognised; the scan only recognises those that consent tools show, so this is not proof there is none. Parental consent is not visible from outside.	To verify: if the service can be used by under-18s, check for an age question and a verifiable parental-consent step before data is processed.
Sign-up	DPDP Act, 2023, Section 8(5)	The page is served over HTTPS, with no personal data in its URL	**Cannot Verify (Not captured)**	No page to check.	To verify: load the page and confirm the address bar shows HTTPS.
Homepage	DPDP Act, 2023, Section 6(1) · DPDP Act, 2023, Section 5(1)	A cookie banner appears	**Compliant (Observed)**	A consent tool (Consiva Consent SDK) was detected on the homepage.	No fix needed on what the scan saw.
Homepage	DPDP Act, 2023, Section 6(1) · DPDP Rules, 2025, Rule 3(c)(i)	Reject is as easy as Accept	**Cannot Verify (Observed)**	A Reject option was found, but the scan could not click it, so how easy it is was not tested.	To verify: open the banner and compare the steps and prominence of Accept and Reject.
Homepage	DPDP Act, 2023, Section 6(1) · DPDP Act, 2023, Section 5(1)	No analytics or advertising tag fires before the visitor consents	**Gap (Observed)**	Before any choice, 6 analytics or advertising items loaded: Google Tag Manager (analytics), Google Analytics (analytics), Google Ads (marketing), Google Analytics cookie _ga (analytics), Google cookie _gcl_au (marketing), Google Analytics cookie _ga_PQEBJ3CS74 (analytics).	Load these tags only after a person accepts, and confirm in a clean browser that nothing non-essential runs on arrival.
Homepage	DPDP Act, 2023, Section 6(4)	There is a way to change or withdraw cookie consent later	**Cannot Verify (Not captured)**	A consent tool (Consiva Consent SDK) was detected; whether a footer link or button reopens the choices was not tested, so this is not proof it is missing.	To verify: after choosing on the banner, look for a persistent link or button (often in the footer) that reopens the choices.
Homepage	DPDP Act, 2023, Section 8(1) · DPDP Act, 2023, Section 8(2) · DPDP Act, 2023, Section 16	Third-party scripts are listed, with where each sends data (India or abroad)	**Cannot Verify (Observed)**	6 third-party services or scripts recorded: Consiva Consent SDK, Google Tag Manager, Google Fonts, Static CDN Asset, Google Analytics, Google Ads. Domains contacted: consiva.ai, googletagmanager.com, google.com, googleapis.com, gstatic.com, cloudfront.net, doubleclick.net, google.co.in, api.consiva.ai, www.googletagmanager.com, fonts.googleapis.com, d2xsxph8kpxj0f.cloudfront.net, fonts.gstatic.com, analytics.google.com, stats.g.doubleclick.net, www.google.com, www.google.co.in, ad.doubleclick.net. The scan records the address of each, not the country its servers are in, so where the data goes is not determined.	To verify: for each service, confirm from its documentation or contract where it processes the data, and disclose any transfer outside India.
Homepage	DPDP Act, 2023, Section 5(3)	The notice is available in English or any Eighth Schedule language	**Cannot Verify (Not captured)**	Not recorded for this scan.	To verify: open the privacy notice and look for a language chooser with English and Indian-language versions.

Homepage	DPDP Act, 2023, Section 9(3)	No tracking, behavioural monitoring or targeted advertising is aimed at children	**Cannot Verify (Not seen)**	Nothing suggests the site is aimed at children, though advertising trackers were observed (Google Ads (marketing)). The scan cannot see who the audience is.	To verify: confirm from the audience data that children are not a target, and that no behavioural advertising runs for under-18s.

C. Summary

Readiness score: 92 out of 100: 12 of the 13 checks the scan could assess are met (1 gap, 3 not found). The 18 it could not verify and the 5 that need document review are not counted.

Top gaps, ranked by risk

1. No analytics or advertising tag fires before the visitor consents High risk

Homepage: Gap. Fix: Load these tags only after a person accepts, and confirm in a clean browser that nothing non-essential runs on arrival.

Highest-risk page: 2. Homepage. 1 gap here carry the most weight, led by: No analytics or advertising tag fires before the visitor consents.

This is a separate five-page reading. It does not change the DPDP Compliance Score, which weighs every check by its own weight.
Each check counts equally. A page that does not exist is a finding, not a failed check, except the privacy notice. Only what the scan saw or the policy's own words say is marked Compliant; what could not be seen is marked Cannot Verify, never Compliant.
Plain language, the wording beside a form, and a footer's text are not kept by the scan, so they are marked Cannot Verify rather than judged.

This is a compliance readiness review, not legal advice.

17 SCAN REVIEW

Pages attempted: 5 (scans are limited to 5 pages).

Pages scanned successfully: 5 of 5.

This report is for informational purposes only and does not constitute legal advice. It reflects an automated scan of the pages listed, measured against Consiva's own checks, and is not a certification or guarantee of compliance with any law. Consult a qualified legal professional before relying on it.

Pages that failed or could not be scanned: None failed to load.

How the pages were selected: The entered address is scanned first. The other pages are links found on pages already scanned, plus the sitemap when the site has one, on the entered domain only, and are tried in this order: privacy and cookie pages, then terms and legal pages, then sign-up, login, checkout and contact pages, then about, pricing and product pages, then everything else, with blog and news pages last. Within one group the page found first is tried first. No address is guessed: a page is only tried when a link or the sitemap points to it.

Included in the compliance assessment: All 5 scanned pages were included. Evidence from each of them feeds the checks and the score.

Limitations: Only the entered domain was scanned. Other subdomains and other websites were not. Before consent was observed on all the scanned pages. After Accept and After Reject were observed on the homepage only.

This report is for informational purposes only and does not constitute legal advice. It reflects an automated scan of the pages listed, measured against Consiva's own checks, and is not a certification or guarantee of compliance with any law. Consult a qualified legal professional before relying on it.

A Sector and applicability

low confidence

General website. No sector was identified with enough evidence, so only the general duties are described. Also possible: Technology and AI.

General duties

DPDP Act, 2023, Section 5, Section 6, Section 8

No sector was identified with enough evidence. The general duties apply to every data fiduciary, and the entity-specific requirements stay excluded unless declared.

Observed: 6 form(s) with 15 field(s) were found.
Observed: Policy pages found: cookie policy, privacy policy, terms.
Observed: Consent banner: Consiva Consent SDK; reject-all present.
Observed: 9 analytics or marketing request(s) seen (Google Ads, Google Analytics, Google Tag Manager); 9 of them before any consent choice.
What to check: Declare any entity-specific applicability that is known, or declare the sector so the relevant provisions can be described.

The sector is inferred from page titles and paths, form field names, cookie names and third-party services, with the host name only as a hint that something else must agree with. The scan stores no page body text, so it is an indication, not a finding. The sector never changes the score. Duties that depend on what the organisation is, rather than what its website shows, stay excluded unless declared. Laws outside the DPDP Act and Rules, such as rules set by sector regulators, are not assessed.

No sign that this site is aimed at, or collects data from, children (its sector and form fields do not suggest it), so this is not assessed.

Read: https://www.swaransoft.com/cookie-policy (cookie policy, 24,449 characters; read during the scan)
Only the text of the privacy and cookie policy pages that the scan reached or could fetch was read. Policies in PDF files, behind a login, in images, or loaded after a click are not read. A requirement that is not found in the policy text is reported as not found, not as a violation: the site may state it elsewhere, and a policy is only one place where duties are met. Passages are quoted exactly or not at all. A requirement the model described but could not quote is reported as not found. Legal references are checked against the DPDP Act, 2023 and the DPDP Rules, 2025. Requirements marked as good practice have a duty behind them in the Act but are not stated to be required in the policy itself. This analysis is informational. It never changes the DPDP Compliance Score and is not legal advice.

E Cookie inventory

3 cookies

3	0	3	0	Not tested
Cookies found	Third-party	Set before consent	Long-lived (over a year)	Seen after Reject

Long-lived means the cookie expires more than a year after it was set. The Act and Rules set no limit on a cookie's lifetime, so this is information, not a finding. A purpose is given only for a recognised cookie, in its provider's own words; for any other the scan says what it could establish and that the purpose could not be identified from the name. “Not tested” means no choice was made in that pass, so the cookie's absence there says nothing.

Needs Human Review (3)

Requests to known analytics or advertising services before consent

Needs review

Legal basis: DPDP Act, 2023, Section 6(1); DPDP Rules, 2025, Rule 3
Applies from 2027-05-13.
Observed: 12 request(s) or cookie(s) matching known analytics/marketing services were observed on the scanned pages before any consent interaction.
Observed: The browser contacted those services. This is evidence of a request, not proof that a tracker ran or of what it sent.
Pages: https://www.swaransoft.com/cookie-policy, https://swaransoft.com/
Needs business context and legal interpretation before any conclusion is drawn.
Missing: Whether personal data was actually sent, and which.
Missing: The purpose each service serves for the business, and whether any of them is strictly necessary for the service the visitor asked for.
Missing: Whether the organisation relies on a ground other than consent (a legitimate use under the Act) for any of this processing.

Which entity-specific duties apply to the organisation

Needs review

Legal basis: DPDP Act, 2023, Section 10; DPDP Act, 2023, Section 6(9); DPDP Act, 2023, Section 8(7); DPDP Act, 2023, Section 9; DPDP Rules, 2025, Rule 10; DPDP Rules, 2025, Rule 11; DPDP Rules, 2025, Rule 13; DPDP Rules, 2025, Rule 4; DPDP Rules, 2025, Rule 8
Applies from 2026-11-13.
Observed: These were excluded from the score because a website does not show them: Consent Manager registration and obligations; Erasure after the Third Schedule period, with 48 hours' notice; Verifiable parental or guardian consent for children's data; Significant Data Fiduciary duties (annual DPIA and audit).
Needs business context and legal interpretation before any conclusion is drawn.
Missing: Whether the organisation processes children's data, is a notified Significant Data Fiduciary, is a Consent Manager, or falls in a Third Schedule class.

Most assessed duties are not yet in force

Needs review

Observed: The consent and notice duties start on 2027-05-13 (18 months after the Rules were published). This assessment is a readiness view, not a statement that a duty is currently breached.
Needs legal interpretation before any conclusion is drawn.
Missing: Whether any transitional or sector-specific rule applies to this organisation.
